Aquarion Water Company is moving on up

On Monday, October 24, 2005, Aquarion Water Company of New Hampshire will be moving its Hampton office from the first floor of Building A at 1 Merrill Industrial Drive into the second floor of Building D at 1 Merrill Industrial Drive.

According to Shawn Bradford, Aquarion Director of Operations, the move to larger space will allow the field staff to be housed with the administrative staff.

"The move will both cut expenses and also improve efficiency," Bradford said, "Having the entire company under one roof will make the operation run smoother and help improve the level of service we provide our customers.

The Aquarion phone number will remain 603-926-3319.
