Aquarion Water Company's 5-Mile Walk Will Benefit Ali's Angels

Alison Cubbellotti of Trumbull has been living with a debilitating, incurable, liver disease, Primary Sclerosing Cholangitis, since she was 9 years old. She also has Crohn's Disease, which is incurable as well.

Now 20, Alison has faced numerous related medical issues, and her health has worsened. At this point, only a liver transplant will save her.

For the past three years, Alison's family and friends have been raising money for research to find a cure for Primary Sclerosing Cholangitis through "Ali's Angels," which they set up in conjunction with the American Liver Foundation. Their deepest desire is for Alison to have a normal, pain-free life. Our desire is to help. Won't you join us?

Aquarion Water Company is sponsoring a 5-mile walk in partnership with the Bridgeport Regional Business Council's Fitness Challenge, Sunday, October 25, 2009, at 9 a.m. in Seaside Park, Bridgeport.

This event promotes the BRBC's goal of increasing fitness and improving health among its members. In addition, Aquarion aims to raise awareness of a local charity, Ali's Angels, which is raising funds for the American Liver Foundation.

Walk with Aquarion Oct. 25 for your own benefit, and donate to Ali's Angels to benefit those who are waiting for a cure for liver diseases. To donate, visit www.aquarionwater.com and click the link for the 5-Mile Walk. Or, send a personal check made out to the American Liver Foundation (memo: Ali's Angels) to The American Liver Foundation, CT Division; 127 Washington Ave.; North Haven, CT 06473.

All participants in the BRBC Fitness Challenge are welcome to this event, which also will be open to the general public.

To register for the walk or donate to Ali's Angels, visit our website at www.aquarionwater.com
